

## **GLS Spain renews its commitment to Premier Padel events in Spain and strengthens its support for women's sports**

**The company will continue to be the official logistics provider for Premier Padel tournaments in Spain for the second consecutive year, reaffirming its support for women's sports and its commitment to sustainability through concrete actions at each tournament.**

**Madrid, February 27, 2025 - GLS Spain** will continue to manage the logistics needs of Premier Padel tournaments held in **Gijón, Málaga, Madrid, and Barcelona**, ensuring efficient shipping solutions during the events. With this agreement, the company reinforces its commitment to **society and its environment**, promoting gender equality, sports, and the environment. This vision is further reinforced by the continued representation of professional players **Bea González and Lucía Sainz** as ambassadors, who, with their careers and achievements in professional padel, symbolize GLS Spain's efforts to promote female talent.

"Renewing this agreement means joining forces to support the teams and provide a more equal sport that generates a positive message in society. At the same time, we want to support them because we share the dedication and commitment that sports require to achieve great goals," said Roberto Martínez, Managing Director of GLS Spain.

The President of Octagon Spain, Joan Cuscó, expressed his satisfaction with the renewal of GLS's sponsorship, highlighting that this collaboration strengthens the brands' commitment to high-level padel. "It is a great support for the growth of the sport in the country and worldwide," he commented. "GLS has been key to the continued evolution of events like this," he added.

GLS Spain consolidates its role as a key logistics provider in the sports field, offering advanced solutions that ensure operational efficiency in the main tournaments of this competition. Additionally, it stands out for its active and visible participation, constantly innovating at each event.

In this regard, the company is present at the Gijón Premier Padel P2 with a promotional stand that highlights its sustainable vision. This space, conceptually linked to the "out of home" package delivery model, invites attendees to participate in an entertaining dynamic.

Furthermore, GLS Spain's activation is a clear example of its commitment to innovation and the creation of ecological solutions for a more sustainable future. Thanks to the use of a reusable aluminum frame construction system, the use of wood and paint has been eliminated, and the use of PVC has been almost entirely reduced through ECO textile canvases made from recycled thread.

#### **About GLS Spain**

GLS Spain is a subsidiary of the GLS Group, a leading provider of national and international parcel, freight, and express shipping services in 40 countries. Thanks to its extensive network of logistics centers and deep knowledge of the local market, GLS customers receive high-quality, personalized, and flexible service not only in Europe but also beyond its borders. As a group, GLS generated record revenues of 5.6 billion euros and delivered 905 million parcels in 2023-2024.

In Spain, the GLS network has more than 600 own centers and agencies, supported by over 6,300 Parcel Shops and more than 5,100 delivery vehicles and walkers.

Since 2021, GLS Spain has been a signatory partner of the United Nations Global Compact, further reinforcing its commitment to contributing to the Sustainable Development Goals (SDGs) in the development of its activities.
